

Quality controls

Accelerate QC review

Thermo Scientific™ LabLink™ 360 quality assurance software offers the only QC dashboard with dynamic visualization and insights—making it faster and easier to spot issues, understand performance, and act with confidence.

Sharper insights, fast decisions

The integrated, centralized dashboard brings all QC metrics into one clear, actionable view—optimizing workflows by reducing steps from review to resolution.

Streamline peer participation

Auto-connectivity and guided setup enable quick onboarding to peer groups, for built-in benchmarking with real-time comparison in daily QC workflows.

Strengthen network control

Affiliated lab management provides unified oversight across multi-site and referral networks for secure data sharing and automated workflows.

The quality assurance program designed to accelerate QC review with real-time actionable insights

The comprehensive LabLink 360 dashboard puts all key lab metrics into a single, comprehensive view and streamlines key tasks like addressing exclusions and missing QC.

Quick and easy troubleshooting

- Identify trends and shifts with real-time peer comparison data
- Gain statistical insights with peer data and Six Sigma analysis

Scalable and secure

- Rely on secure, fully automated data transfers and multifactor authentication
- Experience seamless multi-site management for large health systems
